1) Health, Safety & Environment
   No reportable incidents today.

2) McMurdo Operations
   • Personnel on Site:
     Frank Rack, Dar Gibson, Graham Roberts, Chad Carpenter, Daren Blythe, Justin
     Burnett, Jeff Lemery, Dennis Duling, Adam Melby, Robin Bolsey
   • Summary:
     Plumbing: Work on hose washer system continues; minor modifications to RCU
     manifolds begun to facilitate hose connections and plumbing draining. RCU interior hose
     fabrication begun. (These hoses comprise the connections between manifolds and
     between the manifolds and reels.)
     Electrical: Construction of inter-container cable tray connections & associated access
     ramps continues. Inter-container cable arrangement optimized and neatened.
     General: Work on reel braking system continues; sensor wiring in RCU ongoing. RCU
     roof access and configuration of RCU roof equipment ongoing (Smeal boom in place but
     not yet fully installed). Glycol flow meter wired into control system.

3) Upcoming Events/Tasking:
   • Continue/complete tasking above; continue work on making crescent extension/support
     system operational; begin hookups/securing of spare air compressor; continue work on
     hose wash system. Fabricate/install remaining hoses for RCU.

4) General Issues:
   • No new issues.

5) Weather Conditions
   • Temperatures ranged between 20 and 30ºF during the day. Sunny with steady breeze of
     about 10 knots.
6) Vehicles/Generators

- Vehicles in use: Caterpillar 297 skid steer, Mattrack pickup.
- Generators in use: Two WISSARD 50 kW generators; portable 3.5 kW and portable 1 kW from ASC. Large generators are not operational yet.

7) ASC Interfacing

- Two ASC electricians still on loan to help with electrical work.

8) Cargo

- No cargo delivered to WIS Spot today.
